The many localities," said Mr. Rivey, these negal checks are used as comparent arrency. So far as my information goes they are checky used by corporations engaged in coal mining and sawing lamber. Usually, they are made out of alluminous in the sizes of middle slines and questina. A few are made in the sizes of silver dollars, and built dollars. All purport to be worth their face value at the company store in exchange for merchandise. It they are used at other stores in the sizesity, I am informed that they are discounted to serve at the company store, when presented for redemption. The object of this is plainly to induce the men to whom the checks are issued to do their purchasing at the company store.

"I cannot approximate the purposed value of such elsesh that are now in circulation in the State, further than to say that I know the sum would be very large. It has been the custom in the past for certain corporations to issue vast same represented by these checks to employes in place of money, and I happen to know that in some localities, they very mearly constitute the circulating medium, notwithstanding the Fact that they are subject to discount if used elsewhere than at the company store. Most of them are almost exact in size and color to silver and mickel colors.

oins. "Under a former State administration ef-Under a former State administration efforts were made to prohibit the use of these
checks in lieu of money, but the Attorney
General was not able to discover any
method at the control of the State on which
to have proceedings. Recently the Federal
Court in the Indian Territory held that the
use of such checks was unlawful. I procuted a copy of this opinion, and after reallag it became construct that it provides
the remark to be implied in this State. The
ralling of Discript Attorney Rozler seems
to meet every feature of the case, and
arraed with this authority, the Labor Rireal will enfeature to see that the practice of issuing such checks to take the
phase of money either coases after there
procedured in the Federal Courts."

St. Louis, Mo., Jan. 12, 1969.

To the Members of the House of Delegatest
Gentlemet. We the International Union
of Steam Engineers, Local No. 2, as representatives of organized lator and taxpayers, wish you to know that we approve of
the stand taken by your Honorable body
in regard to the electric lighting plants
for the several city institutions, knowing
that the city can furnish its own light at a
much less cost than it can be furnished by
any corporation; and by so doing they will
give the workingman who lives and spends
his ermings here in the city with the city
merchants an opportunity to make a livling.
